

Base Realignment and Closure

NOVEMBER 30, 2006

Dental activity prepares for BRAC

(Source: DENTAC)

The Fort Sam Houston Dental Activity will redistribute its customers in preparation for an influx of troops due to upcoming Base Realignment and Closure changes.

“Our customer numbers will be increasing due to BRAC. We are taking a proactive role and disbursing the number of customers seen at each clinic so we can decrease wait times and better accommodate our customers,” said Capt. Carl Shaw, DENTAC detachment commander.

Additionally, the Brooke Army Medical Center Dental Clinic will be available for routine dental treatment. In the past, only customers needing a surgical procedure were seen there.

The redistribution will start Jan. 3 with a records transfer Dec. 29. For more information, call 295-2743. See redistribution chart below:
